

How can I apply for a dormitory?

Válasz:

We make a distinction between freshmen, non-freshmen and mid-semester dormitory application. Students can apply through the education system. The request can be filled out and submitted under "Administration/Dormitory registration". The interface will then offer the registration periods to which the users can submit a dormitory application. For the application students must choose the preferred dormitory or dormitories and they can also rank those in a list. Students can then click on "Registration" and fill out the dormitory application form. By submitting the form the registration will be finalized. The instruction for filling and the call for applications will include information about how to fill the forms out and what must be done in each registration period.
